MUSTAFA YALÇIN

FRONT-END SOFTWARE DEVELOPER

Eskişehir, Türkiye | mustafa00yalcin@gmail.com | (546) 426 79 99

PROFESSIONAL SUMMARY

Front-end developer with 3 years of experience leading website design projects, including gathering user requirements, producing code and enhancing designs. Focused on creating clean, robust code with exceptional security. Achieves compatibility targets while meeting and exceeding customer demands. Focused on improving code efficiency and product stability through consistent testing and refactoring. Thorough team contributor with strong organizational capabilities. Experienced in handling numerous projects at once while ensuring accuracy. Effective at prioritizing tasks and meeting deadlines.

PROFESSIONAL EXPERIENCE

Front-end Software Developer, PITON Technology, Eskişehir   Jan 2023 — Present

- Boosted front-end performance by up to 70% in ITS and GIS applications by refactoring legacy code, optimizing React rendering and implementing dynamic loading with React.js and Next.js.
- Ensured scalability and code quality by implementing clean architecture and best practices, leading to an 80% reduction in bugs and improved maintainability.
- Actively collaborated with teams and provided mentorship to 5+ junior developers and interns, leading to measurable boosts in their code quality, task completion rates and overall project contributions.
- Collaborated with UX/UI designers to implement design specifications, resulting in intuitive interfaces that increased user satisfaction.
- Troubleshot technical issues related to front end development, ensuring prompt resolution to maintain project timelines.
- Engaged in continuous learning of emerging technologies, incorporating industry advancements into projects when applicable.

Front-end Web Developer, Freelance, Isparta   Dec 2021 — Jan 2023

- Designed and developed web interfaces for 7+ client websites, focusing on user behavior and interaction patterns, which led to noticeable improvements in navigation flow, layout clarity and overall usability.
- Reviewed and integrated feedback across multiple development cycles, implementing changes to layout structure, feature accessibility and interactive elements that enhanced user experience and reduced support inquiries.
- Implemented SEO best practices in coding and content structure for refined search engine visibility.
- Optimized website performance through code refinement and resource management, leading to reduced load times and increased user retention.
- Integrated APIs and third-party services to enhance functionality, streamlining processes and expanding user capabilities on the platform.

Software Developer Intern, HarmonyERP, Sakarya   Aug 2021 — Sep 2021

- Completed a 2-month internship developing Android applications using Kotlin, contributing to the release of 2 functional app features used in a demo product.
- Gained hands-on experience with Firebase for authentication and data storage, collaborating with a team of 5 developers through daily meetings and weekly code reviews to enhance technical proficiency and team efficiency by 20%.
- Collaborated with cross-functional teams to gather requirements, ensuring software solutions met business needs and optimized workflow efficiency.
- Worked with developers to identify and remove software bugs.
