

MUSTAFA YALÇIN

FRONT-END SOFTWARE DEVELOPER

Eskişehir, Türkiye | mustafa00yalcin@gmail.com | [546 426 79 99](tel:5464267999)

PROFESSIONAL SUMMARY

Front-end developer with **5+ years of experience** building and scaling high-performance web applications. Specialized in **React and modern front-end architectures**, with a strong focus on **performance optimization, maintainable codebases, and user-centric design**. Proven track record of leading refactors, improving **page load performance and application stability**, and collaborating cross-functionally to deliver scalable, production-ready solutions.

PROFESSIONAL EXPERIENCE

Front-end Developer, PITON Technology Jan 2023 — Present
Eskişehir

- Led a large-scale refactor of legacy front-end systems, leveraging advanced React rendering strategies and Next.js dynamic imports to achieve **up to 70% faster page loads, 40% lower TTI, and 25% improvement in Core Web Vitals** across ITS and GIS platforms.
- Designed and standardized a scalable front-end architecture based on **clean architecture principles**, reusable component libraries, and optimized state management, resulting in **80% fewer production bugs, 30% reduction in hotfixes**, and significantly lower long-term maintenance costs.
- Drove front-end performance excellence by identifying and resolving complex **rendering bottlenecks, browser inconsistencies, and production issues**, reducing front-end-related incidents by **~45%** while maintaining **100% on-time delivery**.
- Mentored and onboarded **5+ junior developers and interns**, establishing structured code review and feedback workflows that improved **PR acceptance rates by ~35%**, reduced rework, and increased overall team throughput.
- Collaborated closely with **UX/UI and product teams** to deliver accessible, high-performance interfaces, contributing to a **20% increase in user satisfaction** and measurable gains in usability and engagement metrics.
- Proactively evaluated and introduced modern front-end tools and frameworks, accelerating development cycles by **~15%** while reinforcing technical consistency and scalability across multiple projects.

Front-end Web Developer, Freelance Dec 2021 — Jan 2023
Isparta

- Delivered and maintained responsive web interfaces for **7+ client websites**, applying user behavior and interaction insights to improve **navigation flow, layout clarity, and overall usability**.
- Iterated on designs across multiple development cycles by systematically reviewing stakeholder and user feedback, refining **layout structure, accessibility, and interactive elements** to enhance user experience and reduce support-related issues.
- Applied **SEO-focused front-end practices** in markup, performance, and content structure, strengthening search engine visibility and organic traffic potential.
- Improved site stability and performance through **code optimization and efficient asset management**, achieving faster load times and contributing to higher user retention.
- Integrated **external APIs and third-party services** to extend platform functionality, automate workflows, and deliver richer user-facing capabilities.

- Contributed to Android application development during a **2-month internship**, building **2 production-ready features** in **Kotlin** for a demo product release.
- Supported authentication and data workflows using **Firebase**, collaborating within a **5-person engineering team** through daily stand-ups and structured code reviews.
- Partnered with cross-functional stakeholders to clarify requirements and align mobile features with **business and workflow needs**.
- Assisted in debugging and stabilizing application behavior by identifying, fixing, and validating software defects across development cycles.

EDUCATION

Süleyman Demirel University
Computer Engineering, Isparta
3.28 / 4.00 GPA

Sept 2018 — Oct 2022
